

Burnt Structure Disposal Policy and Procedures

Due to the potential for a landfill fire as a result of hot loads, as well as increased toxic leaching potential for ash, the following policy and procedures MUST be followed at VONCO II Landfill in Becker, Minnesota with regard to handling burned debris.

Accidental Fires

- Minimum of 3-week wait time from the date of the fire.
- Mandatory site inspection by a Vonco representative.
- Any ash must be tested for TCLP RCRA Metals and profiled with Sherburne County.
- Material will be handled as Friable Asbestos and must be manifested.
- Material must be burrito wrapped for disposal.
- No Municipal Solid Waste (MSW) is acceptable.
- 24-hour notice prior to hauling the material for disposal – 763.262.8662

Fire Department Practice Burn

- Minimum of 3-week wait time from the date of the fire.
- Pre-inspection and abatement paperwork from official fire departments.
- Letter of “practice burn” from official fire department stating the address and date of the burn.
- A copy of the following must be received 24-hours prior to hauling material for disposal.
- 24-hour notice prior to hauling the material for disposal – 763.262.8662.

Note: ALL loads that appear to be hot, contaminated, or loads that do not meet the listed criteria will be rejected.

Please call Mark Hackbarth at 763.226.5485 with additional questions or assistance with this process.
